

ASSOCIATE OF ARTS (AA) DEGREE

The Associate of Arts (AA) degree is a general transfer degree. This degree indicates that the student has completed a course of study equivalent to the first two years of a bachelor degree. This degree does not officially include a major or minor course of study.

With an Associate of Arts degree from FVCC, a student can typically transfer to any Montana University System school with junior class status and be guaranteed that the lower division general education core requirements have been completed for the transfer school.

To receive the AA degree, the following requirements must be met:

- I. **Completion of sixty (60) semester credits in courses numbered 100 level and above for an AA degree. A course cannot satisfy more than one general education core curriculum area in section V below.**
- II. **Final cumulative grade point average of 2.0 or above. A grade of "C-" or better is required for all general education core requirements unless otherwise stated.**
- III. **At least twenty (20) semester credits earned at FVCC and the final ten (10) credits earned at FVCC.**
- IV. **A limit of twelve (12) semester credits graded "S" may count toward the associate degree. Check with transfer institution regarding the acceptance of "S" credits.**
- V. **General Education Core (31+ credits)**

Montana University System General Education Core criteria, in addition to departmental review, were used as a guideline in determining the core requirements listed below. Please note in some cases an individual course may transfer to one school, but not another, as an individual general education core course.

An FVCC student having completed ALL the FVCC General Education Core requirements can transfer to any Montana University System school and be guaranteed the lower division general education core requirements of that school have been met.

TECHNOLOGY SKILLS (T) 1+ credits

Technology Skills is defined as the ability to operate a computer using one or more of the following tools: word processing, spreadsheets, database.

Required: CMPA or CS 100T or higher. Students who have completed high school computer courses with a "B-" or better may waive this requirement; students with previous experience may test out of CMPA 100T.
