

Radiologic Technology

ASSOCIATE APPLIED SCIENCE **AAS**

Radiologic technologists perform diagnostic imaging procedures, such as X-ray examinations, magnetic resonance imaging (MRI) scans, and computed tomography (CT) scans.

www.fvcc.edu

Today, health care providers are working in one of the fastest growing industries in the country.

Radiologic Technologists are skilled in creating images of the human body with the use of ionizing radiation. Students are trained in diagnostic x-ray procedures and fluoroscopy, digital radiography, surgery, trauma and pediatrics, with plenty of hands-on practical experience.

Licensing Exams

Graduates of this program will be eligible and prepared to take the registry examination administered by the American Registry of Radiologic Technologies (ARRT).

Attributes of Successful Radiologic Technologists

- Detail oriented; ability to follow predetermined protocols
- High level of physical stamina and flexibility
- Mathematically adept
- Technologically savvy
