

## Surveying Licensure Disclosure

The [Associate of Applied Science in Surveying](#) meets the educational prerequisite requirements for licensing in Montana set by the [Montana Board of Professional Engineers and Professional Land Surveyors](#). Upon earning the AAS in Surveying, graduates can take the Land Surveying Intern (LSI) exam. In Montana, an additional six years of experience under the supervision of a licensed surveyor is required before the actual licensing (LS) exam can be taken.

Click [here](#) to view the program requirements. Additionally, the student must:

- Be in a state/territory for which FVCC’s surveying program meets the educational requirements for licensure. Or,
- Sign an attestation acknowledging that they are in a state/territory where FVCC’s surveying program does not meet (or has not determined if the program meets) the educational requirements for licensure but will be seeking licensure and employment in a specified state/territory for which FVCC’s program meets the educational requirements for licensure.

This disclosure indicates the states and territories that FVCC has determined through a reasonable, good-faith effort that the surveying program **meets**, **does not meet**, or has **not determined** if the program meets the educational requirements for licensure. Other requirements include but are not limited to, application and licensing fees, state or professional exams, criminal background checks, obtaining a bachelor’s or graduate degree, years of supervised experience, an NCEES Record Book, etc. Continuing education may also be required for the maintenance of licensure/certification.

State/Territory	Licensing Board/Agency	Meets Educational Requirements for Licensure
Alabama	<a href="#">Alabama Board for Engineers &amp; Land Surveyors</a>	Not Determined
Alaska	<a href="#">Alaska State Board of Registration for Architects, Engineers, and Land Surveyors</a>	Does Not Meet

This disclosure was last updated on June 26, 2024. However, this disclosure may not reflect recent changes or requirements because professional licensure and certification requirements are subject to change. Students are strongly encouraged to contact the state licensing board directly to verify education and licensing requirements in their state/territory.
